FAMILY AND HOME

AT HOME ACTIVITIES

Dear Parents,

This month we will be learning about "Family and Home." During this theme, we are going to discuss what it means to be a part of a family and community. Your child will learn that all families look different, but family is family no matter what.

This month we will be learning "All About Me." During this theme, we are going to engage in a lot of projects that will help us get to know each other better. We will talk about our similarities as well as our differences. Not only do we all look different, but we also have different interests. We will learn about our bodies, our thoughts, and our feelings. We will be asking for family input throughout the next weeks in order to know our families better as well.

Week 1: My Relatives- Immediate Family

- Week 2: My Relatives- Extended Family
- Week 3: Pets
- Week 4: My Community- Community Helpers

At the end of this theme, the children will have the vocabulary of their family units immediate and distant, describe family make-up, learn to identify different types of homes in which families live, and discuss how community helpers are a benefit to the community.

At home you can:

- Create a family tree collage for your child to share.
- Read books to your child about families.
- Talk with your child about the things he/she likes to do a home or at a relative's house.
- Allow your child to help around the house by assigning individual tasks.
- Talk about community helpers in your neighborhood.
- Look for emergency vehicles on your next drive.
